

***The life we used to love***  
**Brie Walton**

How strange it is to feel  
Like I want to live  
The life we used to love

How strange it is to feel  
Like I want to feel  
The life we used to love

How strange it is to feel  
Like I want to see  
The life we used to love

How strange it is to feel  
Like I want to taste  
The life we used to love

How strange it is to feel  
Like I want to destroy  
The life we used to love

How strange it is to feel  
Like I want to give up  
The life we used to love

How strange it is to want  
To seek out  
The life we used to love  
Just to see it  
Wash away  
By the waves of fate  
To see that it will never last  
Until our final breath  
Should death do us part
